SUNDAE SCIENCE

Cherries -

Ice Cream -

In 2018, U.S. production of low-fat ice cream, regular ice cream, and frozen yogurt totaled just over **6.4 billion pounds** USDA research shows the anti-inflammatory and antioxidant compounds in cherries may help consumers with chronic diseases and conditions, such as heart disease, high blood pressure, arthritis, and Alzheimer's

Peanuts -

USDA scientists discovered how raising the peanut storage temperature from 37°F to 55°F reduces energy **by up to 50%** while maintaining quality

Chocolate

USDA-funded research at Penn State is improving disease resistance in cacao, "the chocolate tree," to help sustain the supply of high-quality cocoa to the multi-billion dollar U.S. chocolate industry

USDA

USDA is an equal opportunity provider, employer, and lender.
